Kotak Mahindra Bank

"As the earth simply cannot stop revolving, so Connexrm cannot stop innovating to meet the dire needs of today's educational setup". In this trend of innovation under #comeback100 and the zeal to provide the best of technologies to the school, we have come up with an offer of provisioning all the services Free of Cost to the school absolving them from the burden of additional monetary constraints. This one time free offer under the #comeback100 scheme is dedicated to improve technology use in school instruction in ways that are practical, sensible, and cost- effective. We are providing you a 360^0 solution to all issues that you face in day to day functioning. We always have a panoramic solution in sight to all and any issues that you may face.

The major problems that have been faced by the institutes so far can be summarized as

01 The sudden fall in parent's confidence due to uncertain macro environmental conditions.

02 Lack of multiple touch points with the parents.

03 Technical ineptness of the institutes to face up to the unprecedented situation.

04 Less Technological adoption.

05 Frequent student dropout due to improper infrastructure planning.

06 Moratorium on payments by the parents because of heavy reliance on the person based payments rather than adoption of the online and digital mode of payments.

To alleviate schools with sudden setback and the corresponding delays in getting the required finances, #comeback100 plan has been designed to provide the technology brilliance to the schools and yet not burden them with any financial commitments.

FEATURE LIST – #Comeback Lite

1. eLite SIS

School Management

Class Management

Admission Management

Admission Inquiry

Admission Form

Convert Inquiry Into Confirmation

Direct Link with Student Management

Configurable with Website for Online Admission

Student Management
